Chapter 11 Future Perspectives	Chapter 11 Future Perspectives

### SUMMARY

***Evidence-Based Teaching in Nursing, Second Edition*** focuses on providing potential and current nursing faculty with the tools and knowledge they need to achieve highly successful outcomes for teaching nursing students and staff. The ***Second Edition*** also concentrates on the full role of nursing faculty and not just the educational process.

This item was created as a transition tool for instructors.  
It is not intended for resale, dissemination, or duplication.

This robust text provides concrete examples of best practices with nursing education and has been crafted in a manner to excite members to create a learning environment grounded in best practices and evidence. Today's healthcare environment demands that practice be based on evidence, so the educational process should also be based on best practice and evidence.

## KEY TEXT BENEFITS AND NEW UPDATES

The *Second Edition* has been completely revised with updated new content. This text is a must have for graduate courses.

- Updated and revised content
- Coverage of social media and informatics
- Information on different types of classroom and student involvement
- Discussion of new innovations in online education
- Focus on simulation education
