This transition guide serves to outline the updates and new content found in ***Psychiatric Mental Health Nursing: An Interpersonal Approach, Third Edition***.

OUTSTANDING FEATURES

- Only text of its kind to emphasize interpersonal nursing theory-based concepts as the foundation for nursing practice and the cornerstone of relationship-based care.
- Aligns with APNA/ISPN Essentials of Psychiatric Mental Health Nursing guidelines, QSEN concepts, and addresses the *Future of Nursing 2020-2030* recommendations on social determinants of health and health equity as it relates to mental health.
- Fosters clinical judgment skills with the aid of features such as *Therapeutic Interaction, Care Planning, and How Would You Respond?*
- Vivid real-life consumer perspective sections complement key concepts and promote further insight and understanding.
- Evidence-based practice modules correlate current research to key topics and steward critical thinking.
- NCLEX-style practice questions round out each chapter, promoting test preparation.

REVISION UPDATES

- New Chapter 11 presents an objective look at psychopharmacology, exploring both the pros and the cons of this treatment modality.
- Content surrounding mental health in children and adolescents combined into a single chapter.
- Trauma-informed care content included throughout the text.
- Updated chapter on sexuality and how to support sexual health as a nurse.

APPLICABLE COURSES

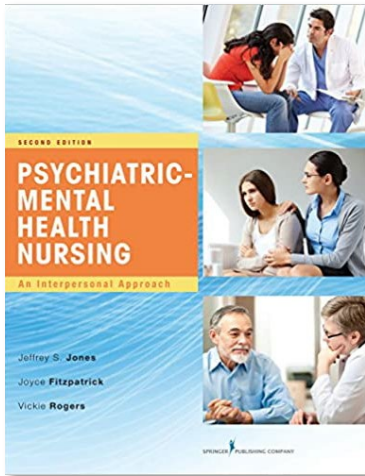

- Psychiatric Mental Health Nursing
- Psychiatric Nursing
- Promotion of Mental Health
- Mental Health Nursing

INSTRUCTOR RESOURCES

- Chapter Quizzes, Midterm, Final (contains NCLEX-style questions)
- LMS Test Bank Conversions
- PPTs
- Syllabus
- Instructor's Manual
- Case Studies

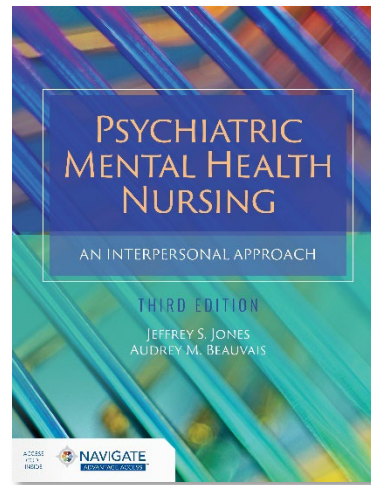

CHAPTER OUTLINE

This chapter outline comparison has been created to help you easily transition to the *Third Edition*. Note that chapter content from the *Second Edition* may now be found in a different chapter in the *Third Edition*. Also note that chapter numbers and titles may have been updated.
