**2022 Board of Directors**

President: Felix H. Savoie, III, MD, FAAOS  
First Vice-President: Kevin J. Bozic, MD, MBA, FAAOS  
Second Vice-President: Paul Tornetta, III, MD, FAAOS  
Treasurer: Michael L. Parks, MD, FAAOS  
Past-President: Daniel K. Guy, MD, FAAOS  
BOC Chair: Claudette M. Lajam, MD, FAAOS  
BOC Chair-Elect: Alfonso Mejia, MD, MPH, FAAOS  
BOC Secretary: Joel L. Mayerson, MD, FAAOS  
BOS Chair: Alexandra E. Page, MD, FAAOS  
BOS Chair-Elect: Armando F. Vidal, MD, FAAOS  
BOS Secretary: Adolph J. Yates, Jr., MD, FAAOS

**Members-at-Large:**

Chad A. Krueger, MD, FAAOS  
Valerae O. Lewis, MD, FAAOS  
Toni M. McLaurin, MD, FAAOS  
Karen M. Sutton, MD, FAAOS  
Lay Member: Lisa N. Masters  
Chief Executive Officer (ex-officio): Thomas E. Arend, Jr., Esq., CAE

**Editorial Credits**

Chief Commercial Officer: Anna Salt Troise, MBA  
Director, Publishing: Hans J. Koelsch, PhD  
Senior Manager, Editorial: Lisa Claxton Moore  
Senior Editor: Steven Kellert

Jones & Bartlett Learning books and products are available through most bookstores and online booksellers. To contact the Jones & Bartlett Learning Public Safety Group directly, call 800-832-0034, fax 978-443-8000, or visit our website, [www.psglearning.com](http://www.psglearning.com).

Substantial discounts on bulk quantities of Jones & Bartlett Learning publications are available to corporations, professional associations, and other qualified organizations. For details and specific discount information, contact the special sales department at Jones & Bartlett Learning via the above contact information or send an email to [specialsales@jblearning.com](mailto:specialsales@jblearning.com).

The content, statements, views, and opinions herein are the sole expression of the respective authors and not that of Jones & Bartlett Learning, LLC. Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise does not constitute or imply its endorsement or recommendation by Jones & Bartlett Learning, LLC and such reference shall not be used for advertising or product endorsement purposes. All trademarks displayed are the trademarks of the parties noted herein. *Nancy Caroline's Emergency Care in the Streets, Ninth Edition* is an independent publication and has not been authorized, sponsored, or otherwise approved by the owners of the trademarks or service marks referenced in this product.

There may be images in this book that feature models; these models do not necessarily endorse, represent, or participate in the activities represented in the images. Any screenshots in this product are for educational and instructive purposes only. Any individuals and scenarios featured in the case studies throughout this product may be real or fictitious but are used for instructional purposes only.

The procedures and protocols in this book are based on the most current recommendations of responsible medical sources. The American Academy of Orthopaedic Surgeons and the publisher, however, make no guarantee as to, and assume no responsibility for, the correctness, sufficiency, or completeness of such information or recommendations. Other or additional safety measures may be required under particular circumstances. Clinicians should use their own, independent medical judgment, in addition to open discussion with the patient, when developing patient care recommendations and treatment plans.

This textbook is intended solely as a guide to the appropriate procedures to be employed when rendering emergency care to the sick and injured. It is not intended as a statement of the standards of care required in any particular situation, because circumstances and the patient's physical condition can vary widely from one emergency to another. Nor is it intended that this textbook shall in any way advise emergency personnel concerning legal authority to perform the activities or procedures discussed. Such local determination should be made only with the aid of legal counsel.

## VOLUME 1

### SECTION 1 Preparatory

1

#### 1 EMS Systems

3

Introduction	4
EMS System Development	5
The History of EMS	5
The 20th Century and Modern Technology	7
Licensure, Certification, Registration, and Credentialing	10
Reciprocity	12
Traditional EMS Employment	12
The EMS System	14
Levels of Education	15
The Dispatcher	15
Emergency Medical Responder	16
EMT	16
Advanced EMT	16
Paramedic	17
Paramedic Education	17
Initial Education	17
Continuing Education	17
Additional Types of Transports	18
Transport to Specialty Centers	18
Interfacility Transports	19
Working With Other Professionals	19
Working With Hospital Staff	19
Working With Public Safety Agencies	20
Community Expectations	20
National EMS Group Involvement	20
Professionalism	21
Roles and Responsibilities	23
Medical Direction	26
Improving System Quality	27
Continuous Quality Improvement and Quality Control	27
Minimizing Errors	28
EMS Research	30
The Research Process	30
Funding	31
Types of Research	32
Research Methods	33
Ethical Considerations	34
Evaluating Medical Research	35
Evidence-Based Practice	36

#### 2 Workforce Safety and Wellness

45

Introduction	47
Components of Well-Being	48
Physical Well-Being	48
Mental Well-Being	55

Emotional Well-Being	55
Spiritual Well-Being	56
Disease Transmission	56
Management of an Exposure	58
Protecting Yourself	58
Immunizations	58
Personal Protective Equipment and Practices	60
Hostile Situations	67
Traffic Incidents	68
Power Lines and Lightning Hazards	69
Stress	70
What Triggers Stress	70
Physiology of Acute Stress	71
How People React to Stressful Situations	73
Coping With Your Own Stress	76
Burnout	77
Coping With Death and Dying	79
Stages of the Grieving Process	79
Dealing With a Dying Patient	80
Dealing With a Grieving Family	81
Dealing With a Grieving Child	81
After the Call Is Over	82
Peer Support and Suicide Prevention	83

#### 3 Public Health

91

Introduction	92
Role of Public Health	92
Public Health Threats	92
Injuries	92
Chronic Illness	94
Acute Illness	94
The Cost of Public Health Threats	95
The Teachable Moment	96
Prevention	97
The 4 Es of Prevention: Education, Enforcement, Engineering/Environment, and Economic Incentives	98
The Value of Passive Interventions	100
Why EMS Should Be Involved	100
How EMS Can Get Involved	102
Injury and Illness Surveillance	104
The Haddon Matrix	105
Getting Started in Your Community	106
Recognizing Injury and Illness Patterns in Your Community	106
Prevention Programs for Children	107
The Steps to Developing a Prevention Program	107
Community Organizing	109
Funding a Prevention Program	110
Summary	110

**4 Medical, Legal, and Ethical Issues 117**

Introduction	118
Medical Ethics	119
Ethics and EMS Research	123
The Legal System in the United States	123
Types of Law	124
The Legal Process	126
Legal Accountability of the Paramedic	127
The Paramedic and the Medical Director	127
EMS-Enabling Legislation	128
Administrative Regulations	128
Medical Practice Act	129
Scope of Practice	129
Health Insurance Portability and Accountability Act	129
Emergency Medical Treatment and Active Labor Act	131
Emergency Vehicle Laws	133
Transportation	133
Crime Scene and Emergency Scene Responsibilities	133
Mandatory Reporting	134
Coroner and Medical Examiner Cases	134
Paramedic–Patient Relationships	135
Consent and Refusal	135
Decision-Making Capacity	136
Documenting Informed Refusal	137
Minors	138
Violent Patients and Restraints	139
Negligence and Protection Against Negligence	140
Claims	141
Elements of Negligence	141
Abandonment	143
Patient Autonomy	144
Advance Directives	144
End-of-Life Decisions	149
Defenses to Litigation	150
Good Samaritan Legislation	150
Governmental Immunity	151
Qualified Immunity	151
Employment Law and the Paramedic	152
Americans With Disabilities Act	152
Title VII of the Civil Rights Act	152
Sexual Harassment	153
Additional Federal Laws Dealing With Discrimination	153
State Laws	153
Family and Medical Leave Act	153
Occupational Safety and Health Administration	154
Ryan White Act	154
National Labor Relations Act	154

**5 Communications 163**

Introduction	164
Communication Theory	165
Barriers to Effective Communication	165
Response to the Call for Emergency Medical Services	166
Crew Resource Management	166
Phases of EMS Dispatch	167
EMS Communications Systems	170
Basic Radio Communications Theory	170
Communications Systems Components	171
Interoperability	173
Cellular Technology	174

Satellite Communications	175
Backup Communications Systems	175
Biotelemetry	176
Communicating by Radio	177
FCC Regulations	177
Clarity of Transmission	177
Content of Transmissions	178
Communications Formats Used During the Different Phases of the Response	180
Relaying Information to Medical Control	181
Therapeutic Communication	185
Developing Rapport	185
Conducting the Interview	186
Strategies to Elicit Useful Responses to Questions	187
Common Interviewing Errors	188
Nonverbal Skills	189
Special Interview Situations	189
Cross-Cultural Communication	193
Cultural Competence	193
Cultural Awareness	194
Traditional Folk Medicine and Understanding of Illness	194
Language Interpretation	196

**6 Documentation 205**

Introduction	206
Legal Implications of a PCR	207
Purposes of Documentation	207
Continuity of Care	207
Minimum Requirements and Billing	208
EMS Research	208
Incident Review and Quality Assurance	209
Types of PCRs	209
Documentation for Every EMS Call	210
Transfer of Care	211
Care Before Arrival	211
Situations Requiring Additional Documentation	212
Refusal of Care	212
Workplace Injuries and Illnesses	213
Special Circumstances	216
Completing a PCR	217
PCR Narrative	218
Elements of a Properly Written PCR	221
Consequences of Poor Documentation	222
Errors and Falsification	224
Documenting Incident Times	226

**7 Medical Terminology 231**

Introduction	232
Origins of Medical Words	233
Eponyms	233
Medical Term Components	234
Word Roots	234
Prefixes	234
Suffixes	236
Combining Forms and Vowels	237
Plural Endings	238
Compound Words	239
Homonyms	239
Antonyms	239
Synonyms	239
Topographic Anatomy	240
Anatomic Planes and Axes of the Body	241

Specific Structures of the Body	242
Body Cavities	242
Directional Terms	243
Movement and Positional Terms	245
Other Directional Terms	246
Position of the Patient	247
Abbreviations, Acronyms, and Symbols	248
Medical Abbreviations	249
Error-Prone Abbreviations	250
Symbols	250
Medical Terminology Related to Pharmacology	251
Master Tables	251

## SECTION 2 The Human Body and Human Systems 267

### 8 Anatomy and Physiology 269

Introduction	270
Characteristics of Life	271
Organizational Structure	271
Chemical Level	271
Matter, Elements, and Atoms	271
Chemical Bonds	272
Compounds	273
Chemical Reactions	277
Electrolytes	280
Acids, Bases, and the pH Scale	281
Cellular Level	282
Cell Structure	283
Life Cycle of the Cell	288
Cellular Signaling	289
Cellular Respiration	290
Body Fluid Composition	291
Cellular Transport Mechanisms	292
Tissue Level	296
Epithelial Tissues	297
Connective Tissues	300
Muscle Tissues	303
Nervous Tissues	304
Types of Membranes	304
Homeostasis	304
Organ Systems	306
The Integumentary System	308
Skin	308
Accessory Structures	310
The Skeletal System	311
Characteristics and Composition of Bones	312
Joints	315
Axial Skeleton	318
Appendicular Skeleton	328
The Musculoskeletal System	334
Components of Connective Tissue	334
Muscle Attachments	334
Muscle Function	335
Muscle Contraction	337
Muscle Tone	338
Muscle Relaxation	338
Energy Sources	338
The Nervous System	340
Neurons and Impulse Transmission	341
Central Nervous System	345
Peripheral Nervous System	356
Sensory Function	368

The Endocrine System	376
Intercellular Communication	377
Hormones	378
Hypothalamus	379
Pituitary Gland	380
Thyroid Gland	381
Parathyroid Glands	382
Thymus Gland	382
Adrenal Glands	384
Gonads	385
Pineal Gland	386
The Circulatory System	387
Blood	388
Heart	393
Blood Vessels and Circulation	401
The Lymphatic System	411
The Respiratory System	413
Upper Airway	414
Lower Airway	419
Lung Volumes	423
Ventilation	424
Oxygenation	426
Respiration	428
Control of Breathing	430
The Digestive System	434
Abdomen	436
Oral Cavity	439
Esophagus	440
Stomach	440
Small Intestine	441
Large Intestine	442
Accessory Organs	442
Digestion and Absorption of Nutrients	443
The Urinary System	445
Kidneys	445
Ureters	450
Urinary Bladder	450
Urethra	450
Fluid Balance	450
The Reproductive System	451
Male Reproductive Anatomy	452
Female Reproductive Anatomy	456

### 9 Pathophysiology 487

Introduction	488
Adaptations in Cells and Tissues	488
Disturbances in Fluid Balance	489
Edema	490
Isotonic Fluid Deficit	491
Electrolyte Imbalances	491
Sodium	491
Potassium	491
Calcium	492
Phosphate	493
Magnesium	494
Disturbances of Acid–Base Balance	495
Types of Acid–Base Imbalance	495
Cellular Injury	498
Hypoxic Injury	499
Chemical Injury	500
Infectious Injury	500
Immunologic and Inflammatory Injury	502
Injurious Genetic Factors	503
Injurious Nutritional Imbalances	503

Injurious Physical Agents or Conditions	503	Assess the Airway	596
Apoptosis	503	Assess Breathing	597
Abnormal Cell Death	504	Assess Circulation	597
Hypoperfusion	504	Restoring Circulation	600
Types of Shock	505	Assess the Patient for Disability	601
Central Shock	506	Expose, Then Cover	601
Peripheral Shock	506	Make a Transport Decision	602
Management of Shock	508	History Taking	604
Multiple Organ Dysfunction Syndrome	509	Purpose	604
The Body's Self-Defense Mechanisms	510	Patient Information	605
Anatomic Barriers	510	Techniques for History Taking	605
Immune Response	510	Ensuring Confidentiality	611
Inflammatory Response	518	Protecting the Patient's Privacy	611
Variances in Immunity and Inflammation	523	Gathering Information From Third Parties	612
Hypersensitivity	523	Cultural Competence	612
Immune Deficiencies	527	Special Challenges in History Taking	614
Factors That Cause Disease	529	Managing Age-Related Considerations	617
Controllable Versus Uncontrollable Risk Factors	529	Responsive Medical Patients	619
Analysis of Disease Risk	530	Unresponsive Patients	623
Common Familial Diseases and Associated Risk Factors	530	Trauma Patients	623
Stress and Disease	541	Review of Body Systems	626
General Adaptation Syndrome	541	Critical Thinking	629
Effects of Chronic Stress	543	Clinical Reasoning	629
<b>10 Life Span Development</b>	<b>555</b>	Secondary Assessment	630
Introduction	555	Physical Exam of Priority Patients	631
Infants	555	Assessment Techniques	633
Physical Changes	556	Vital Signs	634
Psychosocial Changes	559	Equipment Used in the Secondary Assessment	639
Toddlers and Preschoolers	561	The Physical Exam	640
Physical Changes	561	The Full-Body Exam	641
Psychosocial Changes	563	Secondary Assessment of Unresponsive Patients	687
School-Age Children	564	Secondary Assessment of Trauma Patients	687
Physical Changes	564	Recording Secondary Assessment Findings	688
Psychosocial Changes	564	Limits of the Secondary Assessment	689
Adolescents (Teenagers)	565	Monitoring Devices	689
Physical Changes	565	Reassessment	693
Psychosocial Changes	566	Reassessment of the Primary Survey	693
Early Adults	567	Reassessment of Patient Care and Transport Priorities	694
Physical Changes	567		
Psychosocial Changes	567		
Middle Adults	568		
Physical Changes	568		
Psychosocial Changes	568		
Late Adults	569		
Physical Changes	569		
Psychosocial Changes	573		
<b>SECTION 3 Patient Assessment</b>	<b>579</b>		
<b>11 Patient Assessment</b>	<b>581</b>		
Introduction	584		
Sick Versus Not Sick	586		
Establishing a Field Impression	586		
Is This a Medical Emergency or Trauma?	586		
Scene Size-up	588		
Scene Safety: A Dynamic Process	588		
Mechanism of Injury or Nature of Illness	591		
Standard Precautions	592		
Primary Survey	594		
Examination Techniques	594		
Form a General Impression	594		
		Assess the Airway	596
		Assess Breathing	597
		Assess Circulation	597
		Restoring Circulation	600
		Assess the Patient for Disability	601
		Expose, Then Cover	601
		Make a Transport Decision	602
		History Taking	604
		Purpose	604
		Patient Information	605
		Techniques for History Taking	605
		Ensuring Confidentiality	611
		Protecting the Patient's Privacy	611
		Gathering Information From Third Parties	612
		Cultural Competence	612
		Special Challenges in History Taking	614
		Managing Age-Related Considerations	617
		Responsive Medical Patients	619
		Unresponsive Patients	623
		Trauma Patients	623
		Review of Body Systems	626
		Critical Thinking	629
		Clinical Reasoning	629
		Secondary Assessment	630
		Physical Exam of Priority Patients	631
		Assessment Techniques	633
		Vital Signs	634
		Equipment Used in the Secondary Assessment	639
		The Physical Exam	640
		The Full-Body Exam	641
		Secondary Assessment of Unresponsive Patients	687
		Secondary Assessment of Trauma Patients	687
		Recording Secondary Assessment Findings	688
		Limits of the Secondary Assessment	689
		Monitoring Devices	689
		Reassessment	693
		Reassessment of the Primary Survey	693
		Reassessment of Patient Care and Transport Priorities	694
		<b>12 Critical Thinking and Clinical Decision Making</b>	<b>705</b>
		Introduction	705
		Cornerstones of Effective Paramedic Practice	706
		Gathering, Evaluating, and Synthesizing Information	706
		Developing and Implementing a Treatment Plan	708
		Using Judgment and Independent Decision Making	708
		The Range of Patient Conditions	709
		Critical Thinking and Clinical Decision Making	710
		Concept Formation	710
		Data Interpretation	711
		Application of Principle	712
		Reflection <i>in</i> Action	712
		Reflection <i>on</i> Action	713
		From Theory to Practical Application	715
		Taking It to the Streets	715
		1. Read the Scene	715
		2. Read the Patient	717
		3. React	718
		4. Reevaluate	718
		5. Revise the Treatment Plan	718
		6. Review Performance	719

**SECTION 4 Pharmacology****723****13 Principles of Pharmacology****725**

Introduction	726
Historical Perspective on Medication Administration	726
Medication and Drug Regulation	727
Sources of Medication	728
Forms of Medication	729
Medication Management for Paramedics	729
Medication Names	729
Medication Reference Sources	730
AHA Classification of Recommendations and Level of Evidence	732
Medication Storage	732
Medication Security	733
The Physiology of Pharmacology	733
Principles of Pharmacodynamics	734
Types of Medication Responses	741
Principles of Pharmacokinetics	745
Routes of Medication Administration	747
Distribution of Medication	752
Volume of Distribution	753
Medication Metabolism	753
Medication Elimination	754
Reducing Medication Errors	755
Drugs That Act on the Sympathetic Nervous System	757
Important Medications in the Prehospital Setting	761
Medications Used in Airway Management	761
Medications Used in Respiratory Management	767
Medications Affecting the Cardiovascular System	768
Additional Cardiovascular Medications	770
Blood Products and Medications Affecting the Blood	776
Medications Used for Neurologic Conditions	781
Medications Affecting the GI System	782
Miscellaneous Medications Used in the Prehospital Setting	784

**14 Medication Administration****795**

Introduction	797
Medical Direction	798
Ensuring Correct and Safe Medication Administration	798
Local Drug Distribution System	798
Medical Asepsis	800
Clean Technique Versus Sterile Technique	800
Antiseptics and Disinfectants	800
Standard Precautions and Contaminated Equipment Disposal	801
Disposal of Contaminated Equipment	801
Cellular Fluid Composition and Status	801
Body Fluid Composition	801
IV Fluid Composition	803
Types of IV Solutions	804
IV Techniques and Administration	806
Assembling Your Equipment	807
Choosing an IV Solution	807
Choosing an Administration Set	808
Choosing an IV Site	809
Choosing an IV Catheter	811
Inserting the IV Catheter	812
Vein Identification Assistive Devices	814
Securing the Line	814

Changing an IV Bag	815
Discontinuing the IV Line	818
Alternative IV Sites and Techniques	818
Pediatric IV Therapy Considerations	820
Older Adult IV Therapy Considerations	820
Factors Affecting IV Flow Rates	821
Potential Complications of IV Therapy	821
Local Complications	821
Systemic Complications	824
Obtaining Blood Samples	825
Blood Transfusions	827
Intraosseous Infusion	827
IO Sites	828
Equipment for IO Infusion	829
Performing IO Infusion	831
Potential Complications of IO Infusion	831
Contraindications to IO Infusion	834
Medication Administration	834
Mathematic Principles Used in Pharmacology	834
Calculating Medication Doses	839
Weight-Based Drug Doses	840
Calculating Fluid Infusion Rates	841
Calculating the Dose and Rate for a Medication Infusion	841
Non-Weight-Based Medication Infusions	841
Weight-Based Medication Infusions	842
Pediatric Drug Doses	843
Enteral Medication Administration	843
Oral Medication Administration	843
Orogastric and Nasogastric Tube Medication Administration	844
Rectal Medication Administration	844
Parenteral Medication Administration	845
Syringes and Needles	846
Packaging of Parenteral Medications	848
Intradermal Medication Administration	852
Subcutaneous Medication Administration	853
IM Medication Administration	855
IV Bolus Medication Administration	857
Adding Medication to an IV Bag	860
IO Medication Administration	864
Percutaneous Medication Administration	865
Medications Administered by the Inhalation Route	869
Nebulizer and Metered-Dose Inhaler	869
Long-Term Vascular Access Devices	875
Nontunneling VADs	875
Implanted VADs	876
Rates of Medication Absorption	878

**15 Emergency Medications****887**

Pharmacology Formulary	888
Drug Profiles	888
Acetaminophen (Tylenol)	888
AcetaZOLAMIDE (Diamox, Diamox Sequels)	888
Acetic Acid (vinegar)	890
Acetylcysteine (Mucomyst, Acetadote)	890
Activated Charcoal (Insta-Char, Actidose-Aqua, Liqui-Char)	891
Adenosine (Adenocard)	891
Alprazolam (Xanax)	892
Albuterol (Proventil, Ventolin, Proair, Accuneb)	892
Amiodarone (Cordarone, Pacerone)	893
Antibiotics	893
Anticoagulants	897

Antidepressant Agents	999	Oral Antidiabetic (Hypoglycemic) Drugs	933
Antiplatelet Agents	902	Oxygen	935
Aspirin (Acetylsalicylic Acid)	903	Oxymetazoline (Afrin, Dristan 12-Hour, Vicks Sinus-12 Hour)	936
Atropine Sulfate	903	Oxytocin (Pitocin)	936
Benzocaine Spray (Hurricane)	904	Pancuronium Bromide (Pavulon)	936
Beta Blocking Agents	904	Phenylephrine (Neo-Synephrine)	937
Bumetanide (Bumex)	906	Phenytoin (Dilantin)	937
Calcium Chloride	906	Potassium Iodide (Pima Syrup, SSKI, ThyroSafe, ThyroShield)	938
Calcium Gluconate	906	Pralidoxime (2-PAM, Protopam)	938
Cimetidine (Tagamet)	907	PredniSONE (Rayos)	939
Dexamethasone Sodium Phosphate (Decadron)	907	Procainamide Hydrochloride (Pronestyl)	939
Dextrose	908	Prochlorperazine (Compazine)	940
Diazepam (Valium, Diastat AcuDial)	909	Promethazine Hydrochloride (Phenergan)	940
Digoxin (Lanoxin)	909	Proparacaine Ophthalmic (Alcaine, Ophthaine)	941
Diltiazem (Cardizem, Dilacor, Diltiaz)	910	Propofol (Diprivan)	941
DiphenhydrAMINE (Benadryl)	910	Proton Pump Inhibitors	941
DOBUTamine Hydrochloride (Dobutrex)	911	Rocuronium Bromide (Zemuron)	941
DOPamine Hydrochloride (Intropin)	911	Sildenafil (Revatio, Viagra)	942
Droperidol (Inapsine)	912	Sodium Bicarbonate	943
Epinephrine (Adrenalin, EpiPen, AsthmaNefrin)	912	Sodium Thiosulfate (Nithiodote)	943
Etomidate (Amidate)	914	Statins	943
Famotidine (Pepcid)	914	Succinylcholine Chloride (Anectine)	944
Fentanyl Citrate (Sublimaze)	914	Tadalafil (Cialis, Adcirca)	944
Fibrinolytic Agents	915	Tetracaine Ophthalmic Solution (Pontocaine)	945
Furosemide (Lasix)	915	Thiamine Hydrochloride (Vitamin B <sub>1</sub> )	945
Glucagon (GlucaGen)	915	Tranexamic Acid (Cyklokapron, Lysteda)	945
Glucose, Oral (Insta-Glucose)	916	Vecuronium Bromide (Norcuron)	946
Glycoprotein IIb/IIIa Inhibitors	917	Verapamil Hydrochloride (Isoptin, Calan)	946
Haloperidol (Haldol)	917	Ziprasidone (Geodon)	947
Helium Gas Mixture (Heliox)	918	IV Solutions (Colloids and Crystalloids)	947
HydrALAZINE (Apresoline)	918	Albumin (Albumarc, Albutein, Flexbumin)	947
Hydrocortisone Sodium Succinate (Solu-Cortef)	919	Bacteriostatic Water	948
HYDROmorphone (Dilaudid)	919	Dextran	949
Hydroxocobalamin (Cyanokit)	919	Hetastarch (Hespan)	949
Ibuprofen (Advil, Motrin)	920	Lactated Ringer (Hartmann) Solution	949
Insulin	920	Plasma Protein Fraction (Plasmanate)	949
Ipratropium Bromide (Atrovent)	921	Total Parenteral Nutrition (TPN; varies based on mixture)	950
Isopropyl Alcohol	921	5% Dextrose in Water	950
Ketamine (Ketalar)	921	10% Dextrose in Water	950
Ketorolac Tromethamine (Toradol)	922	0.9% Sodium Chloride (Normal Saline)	950
Levalbuterol (Xopenex)	922	0.45% Sodium Chloride	950
Lidocaine Hydrochloride (Xylocaine)	923	3% Sodium Chloride (Hypertonic Saline)	951
Lorazepam (Ativan)	924	5% Dextrose in 0.45% Sodium Chloride	951
Magnesium Sulfate	924	5% Dextrose in 0.9% Sodium Chloride	951
Mannitol (Osmitol)	925	5% Dextrose in Lactated Ringer Solution	951
Meperidine Hydrochloride (Demerol)	925		
MethylPREDNISolone Sodium Succinate (Solu-Medrol)	926		
Metoclopramide (Reglan)	926		
Midazolam Hydrochloride (Versed)	927		
Milrinone (Primacor)	928		
Morphine Sulfate (Roxanol, MS Contin)	928		
Naloxone Hydrochloride (Narcan, EVZIO)	929		
NIFEdipine (Procardia, Adalat, Nifedical)	929		
Nitroglycerin (Nitrostat, Nitrolingual Pumpspray, NitroQuick, Nitro-Bid, Tridil)	930		
Nitroprusside (Nitropress)	930		
Nitrous Oxide 50:50 (Nitronox)	931		
Norepinephrine Bitartrate (Levophed, Levarterenol)	931		
Octreotide (Sandostatin)	932		
Olanzapine (Zyprexa)	932		
Ondansetron Hydrochloride (Zofran, Zofran ODT, Zuplenz)	932		

**SECTION 6** Medical 1091

[illegible]

Emergency Medical Care	1408
Management of Pain, Nausea, and Vomiting	1408
Fluid Resuscitation	1409
Pathophysiology, Assessment, and Management of Specific Abdominal and GI Emergencies	1409
Pathophysiology, Assessment, and Management of GI Bleeding	1411
Upper GI Bleeding: Esophagogastric Varices	1412
Upper GI Bleeding: Mallory-Weiss Syndrome and Boerhaave Syndrome	1412
Upper GI Bleeding: Peptic Ulcer Disease and Gastritis	1414
Upper GI Bleeding: Gastroesophageal Reflux Disease and Hiatal Hernia	1415
Lower GI Bleeding: Hemorrhoids	1416
Lower GI Bleeding: Anal Fissures	1416
Pathophysiology, Assessment, and Management of Esophageal Pathologies	1417
Esophagitis	1417
Tracheoesophageal Fistula	1417
Esophageal Stricture or Stenosis	1418
Pathophysiology, Assessment, and Management of Acute Inflammatory Conditions	1419
Peritonitis	1420
Cholecystitis and Biliary Tract Disorders	1420
Appendicitis	1421
Diverticulitis	1422
Pancreatitis	1423
Pathophysiology, Assessment, and Management of Chronic Inflammatory Conditions	1425
Ulcerative Colitis	1425
Crohn Disease	1425
Irritable Bowel Syndrome	1426
Pathophysiology, Assessment, and Management of Acute Infectious Conditions	1427
Acute Gastroenteritis	1427
Rectal Abscess	1428
Liver Disease: Cirrhosis	1428
Liver Disease: Hepatic Encephalopathy	1430
Pathophysiology, Assessment, and Management of Obstructive Conditions	1431
Esophageal Obstruction	1431
Small-Bowel Obstruction	1432
Large-Bowel Obstruction	1433
Abdominal Wall Hernia	1434
Rectal Foreign Body Obstruction	1435
Pathophysiology, Assessment, and Management of Ischemic and Neoplastic Disorders	1435
Mesenteric Ischemia	1435
Neoplasms	1436
Tumors of the Colon	1436
Pancreatic Tumors	1436
Hepatic Tumors	1437
Prevention Strategies	1438

## 22 Genitourinary and Renal Emergencies 1445

Introduction	1446
Anatomy and Physiology Review	1446
Patient Assessment	1447
Scene Size-up	1447
Primary Survey	1447
History Taking	1450
Secondary Assessment	1451
Reassessment	1452

Emergency Medical Care	1453
Pain Management	1453
Pathophysiology, Assessment, and Management of Specific Emergencies	1453
Urinary Tract Infections	1453
Urinary Catheters	1454
Urinary Obstruction and Incontinence	1454
Kidney Stones (Renal Calculi)	1455
Acute Kidney Injury	1457
Chronic Kidney Disease	1459
End-Stage Renal Disease	1460
Renal Dialysis	1461
Male Genital Tract Conditions	1464

## 23 Gynecologic Emergencies 1473

Introduction	1474
Anatomy and Physiology Review	1474
Menstruation	1475
Patient Assessment	1476
Scene Size-up	1476
Primary Survey	1477
History Taking	1477
Secondary Assessment	1478
Reassessment	1479
Emergency Medical Care	1479
Management of Gynecologic Trauma	1479
Pathophysiology, Assessment, and Management of Specific Emergencies	1479
Infections	1479
Ovarian Disorders	1481
Uterine Disorders	1482
Vaginal Bleeding	1483
Sexual Assault	1485
Sexual Practices and Vaginal Foreign Bodies	1488

## 24 Endocrine Emergencies 1495

Introduction	1496
Anatomy and Physiology Review	1497
Components of the Endocrine System	1497
Patient Assessment	1499
Scene Size-up	1500
Primary Survey	1500
History Taking	1501
Secondary Assessment	1502
Reassessment	1503
Emergency Medical Care	1503
Pathophysiology, Assessment, and Management of Glucose Metabolic Derangements	1504
Diabetes Mellitus	1504
Gestational Diabetes	1510
Hypoglycemia	1511
Hyperglycemia and Diabetic Ketoacidosis	1514
Hyperosmolar Hyperglycemic Nonketotic Syndrome	1518
Pathophysiology, Assessment, and Management of Other Disorders of the Pancreas	1520
Pancreatitis	1520
Pathophysiology, Assessment, and Management of Adrenal Insufficiency	1521
Primary Adrenal Insufficiency	1521
Secondary Adrenal Insufficiency	1522

Pathophysiology, Assessment, and Management of Other Adrenal Emergencies	1522		
Cushing Syndrome	1522		
Adrenal Gland Tumor	1523		
Pathophysiology, Assessment, and Management of Thyroid, Parathyroid, and Pituitary Gland Disorders	1523		
Growth Hormone Pathologies	1523		
Hypothyroidism and Hyperthyroidism	1523		
Graves Disease	1524		
Hashimoto Disease	1524		
Myxedema Coma	1524		
Thyrotoxicosis	1525		
Hyperparathyroidism	1526		
Panhypopituitarism	1526		
Diabetes Insipidus and SIADH	1526		
<b>25 Hematologic Emergencies</b>	<b>1535</b>		
Introduction	1536		
Anatomy and Physiology Review	1536		
Blood and Plasma	1536		
Blood-Forming Organs and RBC Production	1541		
Patient Assessment	1541		
Scene Size-up	1542		
Primary Survey	1542		
History Taking	1542		
Secondary Assessment	1543		
Reassessment	1543		
Emergency Medical Care	1544		
Pathophysiology, Assessment, and Management of Specific Emergencies	1544		
Sickle Cell Crisis	1544		
Anemia	1546		
Leukemia	1547		
Lymphomas	1549		
Assessment	1549		
Management	1550		
Polycythemia	1550		
Disseminated Intravascular Coagulation	1551		
Assessment	1551		
Hemophilia	1551		
Multiple Myeloma	1552		
Transfusion Reactions	1552		
<b>26 Immunologic Emergencies</b>	<b>1559</b>		
Introduction	1560		
Anatomy and Physiology Review	1561		
Immune Response	1561		
Routes of Entry for Allergens	1562		
Physiology of Immune Response	1565		
Patient Assessment	1567		
Scene Size-up	1567		
Primary Survey	1567		
History Taking	1569		
Secondary Assessment	1570		
Reassessment	1571		
Emergency Medical Care	1572		
Pathophysiology, Assessment, and Management of Specific Emergencies	1572		
Anaphylactic Reactions	1572		
Autoimmune Disorders and Collagen Vascular Diseases	1576		
Organ Transplantation Disorders	1579		
<b>27 Infectious Diseases</b>	<b>1587</b>		
Introduction	1589		
Protecting Public Health	1589		
Responsibilities of Public Health Agencies	1589		
Responsibilities of Paramedics	1590		
Protecting Health Care Providers	1591		
Communicable Disease Transmission	1592		
Transmission-Based Precautions	1593		
Personal Protective Equipment and Practices:			
Task Based	1594		
Removal of PPE	1596		
Postexposure Medical Follow-up	1596		
Patient Assessment	1601		
General Management Principles	1601		
Chain of Infection	1602		
Exposure and the Risk of Infection	1602		
Infection and Sepsis	1604		
Pathophysiology	1604		
Assessment	1604		
Management	1605		
Pathophysiology, Assessment, and Management of Droplet-Transmitted Diseases	1605		
Meningitis	1605		
Respiratory Conditions	1606		
Seasonal Influenza	1606		
Pertussis (Whooping Cough)	1607		
Mumps	1608		
Rubella (German Measles)	1608		
COVID-19	1609		
Pathophysiology, Assessment, and Management of Airborne-Transmitted Diseases	1610		
Tuberculosis	1610		
Varicella Zoster (Chickenpox)	1611		
Measles	1612		
Other Infections of the Respiratory Tract	1614		
Mononucleosis	1614		
Pathophysiology, Assessment, and Management of STIs	1615		
Gonorrhea	1615		
Syphilis	1615		
Genital Herpes	1616		
Chlamydia	1617		
Scabies	1617		
Lice	1618		
Other STIs and Related Conditions	1618		
Pathophysiology, Assessment, and Management of Common Bloodborne Diseases	1619		
Types of Viral Hepatitis	1619		
Hepatitis B Virus Infection	1619		
Hepatitis C Virus Infection	1621		
Hepatitis D Virus Infection	1622		
Human Immunodeficiency Virus Infection and Acquired Immunodeficiency Syndrome	1622		
Fungal Skin Infections	1624		
Dermatophyte Infections	1624		
Helminths	1624		
Hookworm	1625		
Pinworm	1625		
Ebola	1626		
Pathophysiology	1626		
Assessment	1627		
Management	1627		
Pathophysiology, Assessment, and Management of Enteric (Intestinal) Diseases	1627		

Norovirus Infection	1627
Pathophysiology, Assessment, and Management of Non-Bloodborne Hepatitis Viruses	1628
Hepatitis A Virus Infection	1628
Hepatitis E Virus Infection	1628
Pathophysiology, Assessment, and Management of Vector-Borne and Zoonotic (Animal-Borne) Diseases	1629
Mosquito-Borne Diseases	1629
Tick-Borne Diseases	1631
Hantavirus Infection	1633
Rabies	1633
Middle East Respiratory Syndrome	1634
Tetanus	1635
Pathophysiology, Assessment, and Management of Infection With Antibiotic-Resistant Organisms and Multidrug-Resistant Organisms	1635
Methicillin-Resistant <i>Staphylococcus aureus</i>	1636
Vancomycin-Resistant <i>S aureus</i>	1637
Vancomycin-Resistant Enterococci	1637
<i>Clostridioides difficile</i>	1638
Carbapenem-Resistant Enterobacteriaceae	1638
Pathophysiology, Assessment, and Management of Newly Recognized Diseases	1639
Severe Acute Respiratory Syndrome	1639
Avian Flu	1640

28 Toxicology 1655

Introduction	1656
Types of Toxicologic Emergencies	1657
Poison Control Centers	1658
Pathophysiology	1659
Routes of Entry	1659
Understanding and Using Toxidromes	1663
Overview of Substance Misuse	1663
Patient Assessment	1667
Scene Size-up	1667
Primary Survey	1668
History Taking	1668
Secondary Assessment	1669
Reassessment	1670
Emergency Medical Care	1670
Pathophysiology, Assessment, and Management of Misuse of and Overdose With Specific Substances	1670
Alcohol	1670
Stimulants	1674
Marijuana and Cannabis Compounds	1678
Hallucinogens	1680
Sedatives and Hypnotics	1682
Opioids	1685
Cardiac Medications	1686
Organophosphates	1689
Carbon Monoxide	1690
Chlorine Gas	1691

Cyanide	1692
Caustics	1694
Common Household Items	1696
Drugs Misused for Sexual Purposes	1696
Poisonous Alcohols	1697
Hydrocarbons	1699
Hydrofluoric Acid/Hydrogen Fluoride	1700
Hydrogen Sulfide	1701
Nitrogen Oxides	1701
Psychiatric Medications	1702
Nonprescription Pain Medications	1704
Metals and Metalloids	1706
Poisonous Plants	1707
Poisonous Mushrooms	1710
Food Poisoning	1711

29 Psychiatric Emergencies 1721

Introduction	1722
Definition of Behavioral Emergency	1722
Prevalence	1724
Medicolegal Considerations	1724
Pathophysiology	1725
Causes of Abnormal Behavior	1725
Psychiatric Signs and Symptoms	1726
Patient Assessment	1727
Scene Size-up	1728
Primary Survey	1728
History Taking	1730
Secondary Assessment	1731
Reassessment	1731
Emergency Medical Care	1732
Communication Techniques	1732
Crisis Intervention Skills	1733
Use of Force and Types of Restraint	1734
Pathophysiology, Assessment, and Management of Specific Emergencies	1739
Acute Psychosis	1740
Delirium	1742
Suicidal Ideation	1745
Patterns of Violence, Abuse, and Neglect	1746
Specific Psychiatric Disorders	1748
Schizophrenia	1750
Medications for Psychiatric Disorders and Behavioral Emergencies	1755
Psychiatric Medication Types	1755
Benzodiazepines	1756
Problems Associated With Medication Noncompliance	1757
Emergency Use of Medications	1757
The Psychological Effects of War: Returning Combat Veterans	1757

# Skill Drills

## VOLUME 1

<b>Skill Drill 2-1</b>	Proper Glove Removal Technique	61	<b>Skill Drill 14-9</b>	Administering Medication via the IO Route	865
<b>Skill Drill 2-2</b>	Handwashing	62	<b>Skill Drill 14-10</b>	Administering Medication via the Sublingual Route	868
<b>Skill Drill 11-1</b>	Performing a Rapid Full-Body Scan	632	<b>Skill Drill 14-11</b>	Administering Medication via the Intranasal Route	870
<b>Skill Drill 11-2</b>	Performing Percussion	634	<b>Skill Drill 14-12</b>	Assisting a Patient With a Metered-Dose Inhaler	872
<b>Skill Drill 11-3</b>	Performing the Full-Body Exam	641	<b>Skill Drill 14-13</b>	Administering a Medication via a Small-Volume Nebulizer	874
<b>Skill Drill 11-4</b>	Using a Glucometer to Assess Blood Glucose Level	646	<b>Skill Drill 16-1</b>	Removing an Upper Airway Obstruction With Magill Forceps	993
<b>Skill Drill 11-5</b>	Assessing the Head	651	<b>Skill Drill 16-2</b>	Using CPAP	1011
<b>Skill Drill 11-6</b>	Examining the Eye	653	<b>Skill Drill 16-3</b>	Inserting a Nasogastric Tube in a Responsive Patient	1013
<b>Skill Drill 11-7</b>	Examining the Neck	656	<b>Skill Drill 16-4</b>	Inserting an Orogastic Tube in an Unresponsive Patient	1015
<b>Skill Drill 11-8</b>	Examining the Chest	658	<b>Skill Drill 16-5</b>	Suctioning of a Stoma	1017
<b>Skill Drill 11-9</b>	Examining the Abdomen	668	<b>Skill Drill 16-6</b>	Ventilating Through a Stoma Using a Resuscitation Mask	1018
<b>Skill Drill 11-10</b>	Examining the Musculoskeletal System	673	<b>Skill Drill 16-7</b>	Ventilating Through a Stoma With a Bag-Mask Device	1019
<b>Skill Drill 11-11</b>	Examining the Peripheral Vascular System	678	<b>Skill Drill 16-8</b>	Replacing a Dislodged Tracheostomy Tube With a Temporary ET Tube	1021
<b>Skill Drill 11-12</b>	Examining the Spine	681	<b>Skill Drill 16-9</b>	Performing Orotracheal Intubation Using Direct Laryngoscopy	1036
<b>Skill Drill 11-13</b>	Examining the Nervous System	685	<b>Skill Drill 16-10</b>	Performing Orotracheal Intubation Using Video Laryngoscopy	1040
<b>Skill Drill 11-14</b>	Evaluating Deep Tendon Reflexes	686	<b>Skill Drill 16-11</b>	Performing Nasotracheal Intubation	1045
<b>Skill Drill 14-1</b>	Obtaining Vascular Access	815	<b>Skill Drill 16-12</b>	Performing Tracheobronchial Suctioning	1048
<b>Skill Drill 14-2</b>	Gaining IO Access With an EZ-IO Device	832	<b>Skill Drill 16-13</b>	Inserting a King LT Airway	1059
<b>Skill Drill 14-3</b>	Drawing Medication From an Ampule	848	<b>Skill Drill 16-14</b>	Inserting an LMA	1062
<b>Skill Drill 14-4</b>	Drawing Medication From a Vial	850			
<b>Skill Drill 14-5</b>	Administering Medication via the Subcutaneous Route	854			
<b>Skill Drill 14-6</b>	Administering Medication via the IM Route	856			
<b>Skill Drill 14-7</b>	Administering Medication via the IV Bolus Route	858			
<b>Skill Drill 14-8</b>	Administering a Medication via IV Piggyback Infusion	861			

<b>Skill Drill 16-15</b>	Inserting an i-gel Supraglottic Airway	1064	<b>Skill Drill 18-3</b>	Performing Synchronized Cardioversion	1202
<b>Skill Drill 16-16</b>	Performing a Surgical Cricothyrotomy	1070	<b>Skill Drill 18-4</b>	Performing Manual Defibrillation	1216
<b>Skill Drill 16-17</b>	Performing Needle Cricothyrotomy and Translaryngeal Catheter Ventilation	1073	<b>Skill Drill 18-5</b>	Performing Defibrillation With an AED	1219
<b>Skill Drill 18-1</b>	Performing Cardiac Monitoring	1177	<b>Skill Drill 18-6</b>	Acquiring a 12-lead ECG	1234
<b>Skill Drill 18-2</b>	Performing TCP	1194	<b>Skill Drill 29-1</b>	Restraining a Patient	1737

# Acknowledgments

The American Academy of Orthopaedic Surgeons and the Public Safety Group would like to acknowledge the editors, authors, and reviewers of previous editions of *Nancy Caroline's Emergency Care in the Streets* who were involved in the development of this textbook.

## Series Editor

### **Alfonso Mejia, MD, MPH, FAAOS**

Program Director, Orthopedic Surgery Residency Program  
Vice Head, Department of Orthopedic Surgery  
University of Illinois College of Medicine  
Medical Director  
Tactical Emergency Medical Support Physician  
South Suburban Emergency Response Team  
Chicago, Illinois

## Lead Editors

### **Barbara Aehlert, MEd, BSPA, RN**

President  
Southwest EMS Education, Inc.  
Dallas, Texas

### **Bob Elling, MPA, EMT-P (ret.)**

Author, Educator, Advocate, and Paramedic  
Hernando, Florida

## Authors

### **Barbara Aehlert, MEd, BSPA, RN**

*Chapters 7, 13, 14, 15, 18*  
President  
Southwest EMS Education, Inc.  
Dallas, Texas

### **Chuck Allias, MS, NRP**

*Chapters 9, 45*  
Director of Emergency Services  
Program Director  
Indiana University of  
Pennsylvania  
Indiana, Pennsylvania

### **Andrew Bartkus, JD, MSN, RN, NRP, CEN, CCRN, CFRN, Esq.**

*Chapter 28*  
Emergency Department  
Director  
Sandoval Regional Medical  
Center  
Rio Rancho, New Mexico

### **Dave Bledsoe, NREMT-P, RN, LNC (ret.)**

*Chapters 4, 6*  
Lieutenant/Paramedic  
Orlando Fire Department  
Orlando, Florida

### **Andrew G. Dubina, MD**

*Chapter 38*  
Resident Physician  
University of Maryland School  
of Medicine  
Department of Orthopaedics  
Baltimore, Maryland

### **Rommie L. Duckworth, MS, LP**

*Chapters 49, 50, 51, 53*  
Captain/EMS Coordinator  
Ridgefield Fire Department  
Ridgefield, Connecticut

**Bob Elling, MPA, EMT-P (ret.)**

*Chapters 2, 8, 11, 12, 40, 41*  
Author, Educator, Advocate, and  
Paramedic  
Hernando, Florida

**Wm. Travis Engel, DO, MSc,  
NRP, FP-C, CCP-C**

*Chapters 37, 42, 43, 44*  
Pediatric Critical Care Medicine  
Fellow  
Children's Mercy Hospital  
Kansas City, Missouri

**Jason Ferguson, EdD, NRP**

*Chapters 17, 31*  
Associate Vice President  
Central Virginia Community  
College  
Lynchburg, Virginia

**Seth Hawkins, MD, FACEP,  
FAEMS, MFAWM**

*Chapter 39*  
Assistant Professor of  
Emergency Medicine,  
Wake Forest University  
Medical Director, Burke County  
EMS and Burke County  
Communications  
Medical Director, Western  
Piedmont Community College  
Emergency Services Programs  
Medical Director, North  
Carolina State Parks  
Chief, Appalachian Mountain  
Rescue Team  
Winston-Salem, North Carolina

**Matt Hunt, BSEd, EMT-P**
