OUTSTANDING FEATURES

- Need-to-know, guidebook approach covers the basics of pediatric care.
- Relevant information for each age group provided in separate chapters, helping students prepare to interview parents, examine children, and offer anticipatory guidance.
- Common problems are organized by body system, including billing codes, assessment, differential diagnoses, treatment plan, follow-up, and parent/child education about the diagnosis.
- Spiral binding provides easy access to the content for clinical encounters.
- Color plate provides full-color images of common childhood dermatological conditions for easy visual reference.

REVISION UPDATES

- Chapter 25, “Respiratory Disorders,” has been updated to incorporate COVID-19 information
- Chapter 14, Chapter 15, Chapter 16, Chapter 22, and Chapter 34 have all been heavily updated
- Included telehealth considerations for providers across all age groups
- Added vaping and e-cigarette use/concerns for adolescents
- Links to the current immunization schedule from the CDC and STI diagnosis and treatment

APPLICABLE COURSES

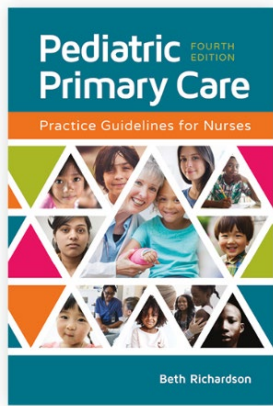

- Pediatric Assessment
- Child Health
- Pediatric Health
- Common Pediatric Management Issues

INSTRUCTOR RESOURCES

- PPTs
- Test Bank
- Case studies
- Discussion questions

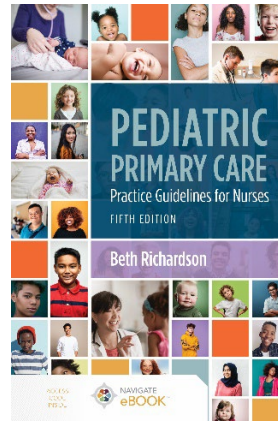

CHAPTER OUTLINE

This chapter outline has been created to help you easily transition to the *Fifth Edition*. Note that chapter content from the *Fourth Edition* may now be found in a different chapter in the *Fifth Edition*. Also note that chapter numbers and titles may have been updated.

*Pediatric Primary Care,
Fourth Edition*
